

ACCREDITATIONS

We manufacture all our products to high industry accreditation standards, ensuring that those you buy come up to the standard or it could affect the value of your home.

FENSA **FENSA**
 Registered Company The EYG Group is a FENSA Registered Company
 All replacement glazing in home; comes within the scope of the Building Regulations. Anyone who installs replacement windows or doors has to comply with the current thermal performance standards. When having windows and doors replaced, homeowners must ensure that they get a certificate of compliance.

 **British Standards/The Kitemark**
 The Kitemark is the World's premier symbol of trust, integrity and quality. EYG has satisfied the most vigorous of quality processes to become certified for manufacture, installation and commitment to customer care.

 **BBA - British Board of Agrément**
 Authoritative and independent certification, which covers every aspect of the manufacture and installation of all EYG products. This certification ensures that we meet the strict building regulations laid down by the European Organisation for Technical Approvals.

GUARANTEES AND OUR GOOD NAME
Over 40 years in the trade
 The companies within the EYG group have thousands and thousands of satisfied customers and still get over 35% of all their business from personal recommendations.

Our Guarantee
 When you invest in EYG products for your home they come with the reassurance of extensive warranties. Make sure that the company you buy from is financially strong and has a track record in business like EYG's otherwise, if you need to claim they might not be there.

ECOSAVE Low E-Glass

A durable, high performance low-E glass that is considerably more neutral than traditional low-emissivity products, making it the clear choice.

Relax... you're
 buying the best!

26 questions you should ask!

EYG HIGH PERFORMANCE GLASS

The Low E-glass fitted by most home improvement companies has a U value of 1.8. EYG ECOSAVE Glass has a U value of 1.4 giving 22% more thermal performance than standard low-e glass.

- | | EYG | OTHERS |
|--|-------------------------------------|--------------------------|
| Better thermal insulation - reducing heat loss further, saving you even more money on heating bills. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| More comfortable rooms - better insulation means your home is cooler in the summer but warmer in the winter with fewer cold spots and drafts near windows or doors. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| Less condensation - the inner surface of the glass stays warmer thereby reducing the likelihood of condensation. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| Less tint in the glass - this gives clearer vision through your windows and means your curtains or Georgian Bars don't look dirty or discoloured. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| More light - less tint also means more light can enter your rooms, making a more comfortable environment and reducing the need for lighting. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| Crystal clear - less of the "haze" (dusty effect) more common with traditional types of thermally insulating glass during manufacture. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| Environmentally friendly - less need for heating helps to reduce energy consumption. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| THE EYG WINDOW PROFILE | | |
| Our profile is quite simply the best looking you can buy, a fully shaped, highly engineered window system with: | | |
| 5 chamber design for exceptional thermal performance. The design significantly reduces the cold bridging that occurs in older technology profile with only three chambers. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| A fully matching profile system that means your windows doors and conservatory frames will all match in style and more importantly colour. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| STRENGTH AND SECURITY | | |
| EYG Windows - feature mitre welded joints and stainless steel friction stays for extra strength. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 28mm sealed double glazed units for superior noise reduction. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| OGEE internal glazing beads not only look good but are more secure. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| High security stainless steel shoot bolt lock with a night vent facility, locking handles fitted as standard. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| Locking handles fitted as standard. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

EYG OTHERS

EYG Doors - fitted with high security MILA Master high security multipoint lock featuring 2 hooks, 2 anti-lifts, 2 pre-compression roller cams which travel before the hooks to ensure smooth operation and positive door alignment

EYG OTHERS
